

(Left) -- NOW TRULY SLIMEY - a Pollywog emerges from the garbage chute and is assisted on his way to the 'coffins' by two Shellbacks.

(Right) -- BARBERED, GREASED, STAINED, EXECUTED, AND COFFINED -- Pollywogs make their way down the shillelagh line where Shellbacks keep them moving along with judicious use of their cotton-padded weapons.

(Left) -- POLLYWOGS ARE TREATED TO A SWIM - in a salt water pool, which they enter (L) by tumbling backward. They are dunked in the pool (C) until a proper and courteous reply is given to the Shellback's question and then gently assisted out of the brine (R) as a full-fledged Shellback.
