

# COMMUNICATION DEPT. (continued)

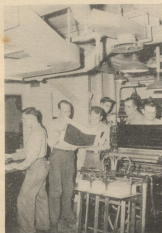

Communication Officer, is directly responsible for the traffic and supervision of the Comm. Office functions and the Coding Board. Lieuts. Johnson, Klaus, LeRoy, Gossale; Lieuts. (jg) Jordan, Collier, Martin and Ensign Engle stand CWO and JCWO watches. Supply officers assigned additional duties in Communications include Lieut. Reynolds and Warrant Officers Gauthier, Smith and Seablosky.

The department handles a corporation volume in many lines. The print shop is constantly in production. The post office men sort and distribute mail at all hours. The Communication Officer in addition to his other duties has the unpleasant assignment of being Chief Censor. And so the prime function of the department really boils down to one main job... get the word... get it accurate... and deliver it for action.

## Double Birthday

The first anniversary of the DENNINGTON reminded Chap W. Sims, Y3c, of V-4 Division that it was also his birthday. Born 6 August, 23 years ago in Columbia, Mo., Sims has been aboard ship since commissioning last year, and has been working with the Air Department since that date.

Instead of cutting the traditional cake on his birthday, Sims spent the day, along with the Air Office force, re-decorating their shop to the taste of Louis. Janner, the Air Officer.
